E-Commerce Roll Baggers

BG-80A Tabletop Roll Bag Bagging Machine

Tailor-made for e-commerce customers and provides integrated solutions such as automatic sealing of express bags, automatic label application. Capable of automatically docking ecommerce orders and integrating with ERP or WMS system to provide customers with an overall solution of plastic bag packaging and delivery. Can be equipped with printers, scanning guns, sorting and conveying equipment.

Model	BG-80A
Speed	Max 1500 Bags/Hour
Suitable Bag	PE Roll Bags
Express sheet size	Width: Max100mm Length: 100mm/180mm or Free setting
Human-machine interface	Touch screen,Virtual Keyboard
Net weight	98KG (215 lbs)
Gross weight	150KG (330 lbs)
Power	500W
Power supply	110/220V, 1PH, 50/60HZ
Machine dimension	L880xW783xH696MM (35"x31"x27")
Screen	4.3 inch touch screen
External communicate	USB,RS232
Pneumatic supply	3 CFM @ 80 PSI
Bag Specifications	

Thickness	Width	Length
0.04-0.08mm (1.5-3mill)	140-390mm (5.5"-15")	240-800mm (9.4"-31.5")

BG-60B Roll Bag Bagging Machine

Made for e-commerce customers and provides integrated solutions, gathered code scanning, weighting, plastic bag packing, auto-sealing, label printing. This machine can seal and cut conventional express film, can adjust the length of bag adaptively, without manual intervention and use of adhesive tape. Can connect with ERP or WMS or other system you are using.

Model	BG-60B
Speed	Max 900 Bags/Hour
Suitable Bag	PE Roll Bags
Express sheet size	W:100/180mm Or custom made
Human-machine interface	Mouse,touch screen,Virtual Keyboard
Net weight	200KG (400 lbs)
Power	1500W
Power supply	220V, 1PH, 50/60HZ
Machine dimension	L1580xW850xH1420MM (62"x34"x56")
Screen	15LCD
External communicate	Ethernet,USB,RS232
Pneumatic supply	3 CFM @ 80 PSI

Bag Specifications		
Thickness	Width	Length
0.04-0.08mm (1.5-3mill)	200-560mm (7.8"-22")	350-800mm (13.7"-31.5")

Tabletop Roll Baggers

T-275 Semi Automatic Bags-On-A-Roll Bagger

This machine automatically and guickly feeds the bag into the loading/sealing position and blows it open before you insert the product. The next bag is then indexed into position and blown open, ready to receive the next product. It is a good choice for lower-volume packaging of a wide variety of products. The bags remain connected and can be separated at the perforated line.

- · Quick roll change and easy threading of bags
- · 4 color touch screen with manual operation or automatic "paced" operation for faster cycle speeds.
- Maximum pass through height is 2.75"
- · Will run bags from 1-5mill
- · Foot switch included

Model #	Bag Size	Power	Air	Bags/Min	Weight	Dimensions

T-300 Automatic Bags-On-A-Roll Bagger

Our smallest, fully automatic bagger offers increased production capabilities. We pack a lot of features into this bagger, including touch-screen operation, "pop-up" messaging, job save/recall and automatic/paced operation.

- · Automatic indexing, sealing, tear-off or
- continuous strips of bags are possible. Full color screen with pop-up windows
- Diagnostic and troubleshooting screens
- · Max pass-through height is 3"

- Preset and totalizing bag counter
- time delay timer · Universal, adjustable parts chute

· Automatic "paced" operation with fill

- · Adjustable support shelf
- · Blower with flow controls

T-375 Automatic Next-Bag-Out Printer/Bagger

In addition to all the features of the T-300, the T-375 incorporates a thermal transfer printer for "Next-Bag-Out" printing. This patented feature allows for printing just prior to loading, which guarantees accurate labeling and allows for quick changeovers on even the smallest batches. The seamless transition is also perfect for pharmaceutical applications when accurate labeling is vital.

- · Zebra 11 OXi Series Printer, 203 dpi
- · 305 dpi and 600 dpi, optional
- 4" x 12" print area or 5" x 12", optional
- Built in memory for storage (999 labels)
- 16 MB SDRAM; 8 MB non-volatile Flash memory

Model #	Bag Size	Power	Index Speed	Air*	Bags/Min	Weight	Dimensions	Price

T-100H Infeed Power Belt Conveyor						

Accessories for High Speed Poly-Baggers

Cleated Compartment Infeed Conveyor

This conveyor allows you to set the production speed for guaranteed production results.

- "V" Tracking Belt Alignment
- Castors

Model #	Compatible With	Weight	Price
UF-5000	T-300 and T-1000 models	220 lbs	

Vibratory Bowl Parts Counter

Great when used with fasteners, hardware electronic components etc.

- Single or dual-accumulator for accurate separation, and accumulation of parts.
- Full color touch screen with user friendly programming

Model #	Compatible With	Voltage	Price
UC-2400	T-1000 models	110V/60Hz std. (220V/50Hz capable)	

Partition Table

Stainless steel table keeps products separated for manual kit packaging.

- Adjustable tilt and height
- · Up to five compartments

Model #	Compatible With	Price
PT-10	T-1000 models	

Semi-Automatic Net-weigh/Counting Scale

When integrated with the T-1000 bagging systems, the US-5000 add-on provides for a fast bagging, versatile and quick changeover scale system.

- Variable samplingAutomatic zeroing
- Keyboard calibrationMultiple modes

Model #	Compatible With	Weight	Price
US-5000	T-1000 models	170 lbs	

Inline Thermal Transfer Printer

The printer is perfectly integrated into the bagging operation with touch screen control over the entire bagging and printing system. It has the capability to print bar codes, text, lines, logos and other custom graphics directly on the poly bag.

Model #	Compatible With	Printing	Price

Ti-1000Z-2	T-1000 models	Double Side	

Accessories for High Speed Baggers

Automatic Net-Weigh Scale

An automatic feeding solution for fasteners, injection molded components, foods or any other bulk products.

• All stainless steel contact surfaces

Programmable bulk & dribble setting

Model #	Compatible With	Weight	Price
US-7000	T-1000 models	250 lbs	

Pouch Sealing Baggers

E-39 Pouch Bag Sealer (Pick, Fill & Seal)

Designed for individual pre-made bags, stand up pouches or zippered bags and can support 4 sided sealed bags. This machine can accommodate a wide fill range and product types such as snacks, cereal, coffee, tea, rice, nuts, candy, granular, powder or liquid products. Can be integrated with a multi-head weigh scale, volumetric cup filler, piston filler, auger filler or loaded by hand. The pre-made bags are loaded into the magazine and grippers take the bag, opens it, then fills it and seals it and discharges the completed bag.

- #304 Stainless Steel Construction
- Single Hopper Magazine Feed
- Designed for pre-made bags

Model #	Production Rate	Bag Width		Bag Length	Price

E-300 High Speed Rotary Pouch Sealer (Pick, Fill & Seal)

The E-300 series rotary pouch sealing machine is an 8 station intermittent motion bag sealing machine. The pre-made bags are loaded manually into the magazine at station #1 The bags are picked up from the magazine using suction cups to place the bag into the first holding station. The pouches are advanced in succession to each subsequent station where the bag is opened, then filled (the pouch 'Fill' signal is generated by the dosing system via Auger filler or weigh scale) then sealed and finally discharged at up to 35 BPM.

- Designed for pre-made bags
- Bag deflator and Zipper bag opener included
- Sold separately: dosing systems such as a multi-head weigh scale, volumetric cup filler, auger filler or piston filler depending on the fill volume of the bag and customers speed requirements.

Drop Sealers

Gravity Drop Sealer/Bag Opener Combo

- Seals up to 10 mil thickness
- Separate controls for seal temperature and seal time
- Hand wheel adjustment instantly adjusts seal bag location
- Adjustable table depth to accommodate different sized items
- · Features a pneumatic seal bar with air eject to quickly seal and remove excess trim scrap
- Up to 25 cycles per minute depending on size of bag and operator dexterity
- Uses wicketed bags up to 20 inches wide on model PP-620
- Independent Temperature and Seal Time controls
- Produces 1/8"W seals
- 110 volt, 2 CFM at 80 PSI air required

Heavy Duty Band Sealers

PP-20T, PP-20TA and PP-20TAZ - Horizontal Continuous Band Sealers

Suitable for sealing all types of materials and bags. Can be used for food, medical or cosmetic industries to name a few. Uses PE, PP, aluminum foil bags or any heat sealable material.

- Left to right infeed
- Bag thickness: up to 7 mill
- Seal throat depth: 1.5"

- Variable speed 460"/min
- Omron temperature control
- Locking casters

PP-20T Horizontal Continuous Band Sealer

PP-20TA Horizontal Continuous Band Sealer with Air Sucking Device (Reduces air in the bag by 60-80%)

PP-20TAZ Horizontal Continuous Band Sealer with Nozzle Type Vacuum Device (Reduces air in the bag by 70-95%)

PP-20U Heavy Duty Vertical Band Sealer (no conveyor)

The PP20-U is free-standing band sealer in which bags can be hand-fed into or this unit can be positioned over an existing conveyor line where bags can be fed into machine.

- · Crank handle adjustment for seal head
- Infeed bag guide
- Omron digital temperature control
- Will seal bags up to 20 mill total thickness
- Welded steel frame w/ powder coated finish
- Left to Right infeed direction
- Seal temperature from 0-300° Celsius
- Seal throat depth 90mm (3.5 in)
- · Sealing width 10mm (5/15/20 mm available)
- Adjustable sealing height
- · Waterproof motors
- · Leveling pads and casters

Manually Adjustable Two-Sided Automatic Carton Folder

Automatic carton folding machine with **manual** box size adjustment.

- Uses 18" carton magazine
- Conversion time: approx. 20-30 min
- Production speed: 6 pcs/min
- Mitsubishi PLC with Swedish PIAB vacuum generator
- Includes 2 molds
- Box Size Range:

Width: 300-400mm (11.8-15.75") Depth: 150-195mm (5.9-7.7") Height: 85-105mm (3.3-4.1")

Model #	Dimensions	Electrical	Weight	Price
PP-207M	92"L x 55"W x 80"H	220 volt, 1 phase, 50-60hz	2,400 lbs	

Automatic Adjustable Two Sided Automatic Carton Folder

Automatic carton folding machine with automatic box size adjustment.

- Uses 18" carton magazine
- Conversion time: approx. 5-10 min
- Production speed: 6 pcs/min
- · Mitsubishi PLC with Swedish PIAB vacuum generator
- Includes 2 molds

Model #	Dimensions	Electrical	Price
PP-206A	92"L x 55"W x 80"H	220V 3 Phase	

Automatic Carton/Tray Folding/Forming Machine with Glue

Automatic tray forming and folding machine can easily adjust to different box sizes. Applications include food boxes, shoe boxes, cosmetic boxes, trays for water bottles, etc.

· Box Size Range:

Length 300-390mm (11.8-15.3")

Width 200-290mm (7.8-11.4") Height 30-120mm (1.2-4.7")

- Mitsubishi PLC
- Proface color touch screen HMI
- Powder coated frame
- Carton magazine holder is 18" (450mm) long
- Forming and glueing speed of 12-15 ppm
- Carton magazine holds 150 pieces

Model #	Dimensions	Electrical	Weight	Price
PP-40TF	59" L x 47" W x 71" H	220 volt, 1 phase, 50-60hz	2,400 lbs	

Auto Carton/Tray Folding/Forming Machine without Glue

Automatically folds and forms cardboard trays without tape or hot melt adhesive. • Omron PLC

- Omron color touch screen HMI
- · Manual adjustment to change to different tray size in 10 minutes
- Powder coated frame
- · Forming speeds of up to 15 pcs per minute depending on tray size
- Carton magazine holds 200-250 pieces
- · Locking casters with leveling pads

Model #		Dimensions	Electrical	Weight	Price
PP-10	without glue	71"L x 63"W x 63"H	220 volt, 1 phase	1,320 lbs	
PP-10G	with Nordson Gluer	71"L x 63"W x 63"H	220 volt, 1 phase	1,320 lbs	

Carton Folding & Tray Forming

Semi-Automatic End Load Cartoner with Glue Sealing

Boxes are manually opened and product is loaded into the box. The boxes are then loaded into the machine where it automatically fold and glue the boxes closed.

- Mitsubishi PLC
- Nordson Glue System
- Variable speed drive
- 20-25 BPM
- 5 min changeover time • Heavy Duty 1/2 HP motor
- 304 Stainless Steel frame
 - · Emergency Stop Button
- · Box Size Range: Length 40-225mm (1.6-10") Width 130-305mm (5-12") Height 20-110mm (.75-4.3")

Model #	Dimensions	Electrical	Weight	Price
PP-302S	67" L x 32" W x 65" H	220 volt, 1 phase, 50-60hz	704 lbs	

Small Bottle Cartoner

 Box Size Range: Length: 60-210mm Width: 20-90mm Height: 12-60mm

Model #	Dimensions	Electrical	Weight	Price
CJ-120	90"L x 30"W x 50"H	220 Volt 1 Phase	870 lbs	Call

Automatic End Load Cartoner with Hot Melt Glue System

The box is automatically opened for the product to be manually inserted into the box. The machine will automatically fold end flaps and glue the box closed. Great for food boxes, cookie boxes, tissue boxes.

 Siemens PLC · Box Size Range: · Color touch screen HMI Length 70-225mm (2.75-8.85") • Stainless Steel Frame Width: 180-300mm (7-11.8") · Heavy duty 2 HP motor Height: 30-100mm (1.18-4") • Speeds up to 75 BPM

Model #	Dimensions	Electrical	Weight	Price
PP-300	157" L x 59" W x 67" H	220 volt, 1 phase, 50-60hz	1764 lbs	

Automatic Carton Sealing Machine with Hot Melt Glue

Automatically open the box, the operator places the product onto the moving conveyor which will automatically insert the product into the box then the machine will automatically fold the end flaps and glue closed.

- Mitsubishi PLC
- Proface color touch screen HMI
- Stainless Steel Frame Construction
- · Heavy duty 2 HP motor
- · Carton magazine holder is 18" (450mm) long

• Box Size Range:

Carton Sealers

CT SERIES

The Preferred Pack® CT Series provides a full range of functionality to fit your needs. Whether you require Side Drive Belts, Top and Bottom Drive Belts, Bottom Only Drive Belts, Stainless Steel, Low Profile or Low Cost, the CT Models offer multiple configurations. Generally, the machine operator simply folds the top flaps of the corrugated carton and feeds it into the machine. The CT Models apply a single tape strip to both the top and bottom of the carton simultaneously (except for CT-50BHO models). The CT Models can be easily adjusted in seconds to process a different size carton.

CT-50 Great for low profile, small, lightweight boxes.

CT-50DB Dual Side Drive Belts Great for tall narrow boxes that shift in a regular machine.

• Piranha Tape Heads with "Easy Thread" Design

- Interchangeable Tape Heads
- Side Pressure Rollers to Close Box Top
- Fully Adjustable Legs
- Power: 110v, single phase, 10 amp
- Machine Speed: 75ft./min. up to 2000 cartons/hour.
- Machine Dimensions: 36"L x 27"W x 53"H
- Box Length: 6" min x Infinite

CT-55 2 Top & 2 Bottom Drive Belts Great for wider, taller, heavier boxes.

CT-55-2 Belt 2 Bottom Drive Belts Great for wider, taller, heavier boxes.

CT-55R Random Automatically adjusts to random sized boxes. Excellent for all types of boxes from 2" up to 22".

Carton Sealers

PP-553SF Carton Sealer with Top Flap Folder

Semi-automatic, uniform carton sealer with top flap folder. The operator only needs to close the 2 top minor flaps before pushing the box into the carton sealer where the two side drive belts pull the box through the machine and tape the top and the bottom of the box. Rated at 15 CPM.

- · Adjustable height legs from 22" to 28"
- Maximum box weight 65 lbs
- Operating speed of 75 FPM or up to 2,000 boxes per hour
- Box Size Range: Length 10" Min to 20" Max Width 10" Min to 20" Max Height 3.5" Min to 20" Max

PP-554TS Adjustable Quad Drive Series

Semi-automatic, uniform carton sealer with Easy Manual Carton Size Adjustment has 2 side drive belts and 2 top drive belts. Applies a single tape strip to both the top and bottom of the case simultaneously. Great for tall, unstable boxes.

- · Quad Drive with 2 Side and 2 Top Drive Belts
- Side Pressure Rollers to Close Box Top
- · Interchangeable Tape Heads

- Fully Adjustable Height Legs
- Power cord and plug

PP-556AU 4-Belt Drive Series

Semi-Automatic, Random Carton Sealer with 2 Side Drive Belts and 2 Top Drive Belts provide positive grip pressure to convey even the heaviest boxes. Applies a single tape strip to both the top and bottom of the case simultaneously. Will easily adjust in seconds to process a different size carton. Can process up to 20 cartons per minute (depending on box size).

- Automatically adjusts to Random Box Sizes Safety guarding with magnetic locks
- 2 Side Drive & 2 Top Drive Belts • . Rated at 15 CPM

*Asterisk indicates stock item SS=Stainless Steel

PP-558F Series Automatic Uniform Sealer with Flap Closer

This operator-free machine will fold the top flaps and automatically tape closed. It applies a single tape strip to both the top and bottom of the box simultaneously. Can be easily adjusted in seconds to process a different size box.

- Easy Manual Carton Size Adjustment
- Safety Guarding With Magnetic Locks

C-200 High Speed Precision Checkweigher with Air Blast Reject

Uses advanced digital signal processing and high speed weighing to detect the weight of your product and match it with the target weight you have pre-set into the machine parameters. If the package does not match your pre-set parameters the product is rejected. Products are ejected via an air blast.

- Includes Air Blast Reject
- 7" LCD color touch screen
- PLC data controller
- Titus III HMI
- 3 levels of speed adjustment
- # 304 Stainless Steel frame construction
- Independent settings for rejector
- Belt speed 80 meters/min or 262 FPM
- 50 program memory
- Machine weight: 220lbs (100kg)
- Machine Dim: 57" L x 23" W x 50" H
- Electrical: 220 volt, 1 Phase, 5 amp

C Series High Precision Checkweighers with Paddle Reject

Uses advanced digital signal processing and high speed weighing to detect the weight of your product and match it with the target weight you have pre-set into the machine parameters. If the package does not match your pre-set parameters the product is rejected. Products are ejected via a paddle reject system or optional air blast reject.

Solid 304 Stainless Steel construction

- PLC control system
- 7-inch OMRON color touch screen
- KEYENCE photoelectric sensor

• 50 program memory

- · Comes with standard paddle-style rejector
- Options
 - Pneumatic Pusher Reject
 - Air Blast Reject
- USB Port to download data
 - · Leveling pad/locking caster

Bottomless Transfer Conveyors

Bottomless Dual Side Belt Transfer Conveyors

Great for transferring cartons or bottles that would normally have a tendency to fall over when transferring from one conveyor to another or if you need to print on the bottom of the bottle you have a clear access to mount an ink jet system to print on the bottom of the bottle with this type of conveyor system. Available in 24", 36" or 48" belt lengths.

- · Heavy duty 1" wide belt to securely grab onto product
- · Variable Speed side drive belts
- Adjustable belt tensioners
- Adjustable belt width of up to 9.5"
- Adjustable belt height of up to 12"
- Adjustable leveling pads from 33.5" up to 36.5"
- Emergency stop switch

Hopper Agitator with frequency regulator

Hopper Agitator with heater package & temperature controller-heats product to a more liquid state for easier filling & increased fill speeds Hopper level sensor

Lid press-Heavy stainless steel plate forces non flowing product down hopper

Upgrade to 5 gallon hopper

Fill spouts - 6mm, 8mm (std), 13mm, 15mm and 18mm. One is included with machine purchase.

Fill spouts, Extended length to 76mm (3")

*Asterisk indicates stock item MZ=Dual Spout

Liquid Filling Machines

Econo Fill - Pressure Overflow Micro Bottle Filler

Containers enter the filling area in groups. When the last container in the group passes the mounted counting sensor, a pneumatic gate will engage and prevent other containers from interfering in the filling process. A product aligner engages the necks of each container, centering it under each fill nozzle, and the nozzles will lower into the opening of each container. Once seated on the opening of the bottles, the fill tubes will be opened and as air exits the container, product will flow in from the product tank. The fill level in each container is controlled by the position of the vent tube, so it is a fill-to-level principle.

- 7" Color Touch Screen HMI Control Panel
- · 4 or 6 Head Overflow Filling Stations
- · Powered conveyor with automatic product positioning of bottles
- #304 Stainless Steel frame construction
- · All contact parts made of SUS 304 Stainless Steel

- 24 product recipe
- Electrical Control Panel
- Locking Casters

AFC-60 Automatic Filling-Plugging-Capping System

- For small diameter bottles. Great for pharmaceutical bottles or CBD bottles.
- #304 Stainless Steel Construction
- · Two stage half-half filling method to prevent foaming
- Precision indexing using bottle starwheel
- Dropper cap feeding system
- Look for our Small Bottle Labelers under Labeling Equipment

Liquid Filling Machines

FX Series - Automatic Servo Piston Filler with Conveyor

Fully Automatic Servo Piston Filler with Conveyor for automatic positioning of bottles.

- Omron PLC with 7" color touchscreen
- 24 program memory
- #304 Stainless Steel construction
- Welded frame
- Accuracy 1.5% of target weight
- 220V

Powder Filling Machines

Volumetric & Loadcell Semi-Automatic Auger Filler

Operator manually loads container under Auger Filler head and presets the fill volume. When ready, operator presses the foot-switch to activate.

- · Semi-automatic
- Control System: Delta PLC & Touch Screen
 All stainless
- Dosing Mode: Volumetric & LoadcellAll stainless steel construction

Model	Weighing range	Filling Speed	Packing accuracy	Price
PP-PF-A11	1-500g	20-80 times/minute	≤100g,≤±2%, 100-500g,≤±2%,	

Linear Volumetric & Loadcell Auger Auto Filler

Container can be fed from a production line or can be placed by hand onto the infeed conveyor where the container will automatically move under the auger head to be filled. Once filled, the container will automatically be discharged and a new container will move into place to be filled.

Automatic

- Dosing Mode: Volumetric & Loadcell
- Control System: Delta PLC & Touch Screen
- All stainless steel construction

Screw Conveyor - Feeds product to Auger Fillers

Screw conveyors are custom manufactured so the conveying height can be increased or decreased based on individual requirements.

- · Eccentric vibrator avoids powder accumulation in the hopper
- Half-openable stainless steel hopper cover
- Hygienic construction # 304 stainless steel
- · Direct drive gear motor coupled to the screw
- · Safety net and hopper cover

- Screw can reverse for easier cleaning
- Locking casters
- 304 Stainless Steel Construction
- 220 volt, 3 phase, 60hz

Capping Machines

CP-10 Manual Single Head Capping Machine

Simply place the cap onto the top of the bottle or container and place under the capping head. Once activated the head will automatically apply pressure to the cap to secure in place.

- Semi-Automatic
- Foot pedal or micro switch activation
- Custom larger bottle diameters available
- Adjustable torque tension control
- · Crank handle for height adjustment
- Built in product counter

- Manual Cap Feeding
- Single Capping Station
- Electrical: 220 volt, 1 phase, 50/60 HZ
- Power: 1.5 kw (1500w)
- Air: 60-80 PSI at 2.5 CFM
- Machine Weight: 20kg (45 lbs)

Model #	Cap Diameter	Bottle Diameter	Bottle Height	Speed	Price
CP-10	20-50 mm (.8"-2")	80mm (3")	50-300 mm (2"-11.8")	> 30ppm	

CP-100SA Semi-Automatic Single Head Capping Machine

Semi-Automatic Capping Machine-Operator simply places the cap onto the top of the bottle or container, the machine with automatically position the bottles into the proper position for the rotary capping wheel to come in from the sides to screw on the caps.

- 7" Color Touch Screen HMI
- · 63" conveyor with automatic bottle positioning
- Omron PLC control system
- #304 Stainless Steel Frame Construction
- Welded frame
- · Multilingual operator interface with product memory
- · Manual Cap Feeding
- Single Capping Station

•	Electrical: 220V,	1	Phase

- Power: 1.0 kw

CW-450S Four-Wheel Servo Capper

High Speed in-line capping machine which can be customized to suit the application. It can be integrated into an existing line or supplied as a self contained unit with in-feed, out-feed systems.

- · Servo motor torque capping heads
- · PLC Control system with HMI
- · Speed & torque adjusted independently
- Emergency stop and 3-color indicate light
- Continuous capping design
- · Heavy-duty conveyor by MCC slat top-chain
- · Four wheel capping head, available for all
- kinds of cap
- 20 slots memory recall
- Frame and component made of SUS#304 and ion anodized aluminum, all meet cGMP requirement
- · Air Requirements: 90 PSI @ 3 CFM6Kg
- Power: single phase 110/220VAC, 50/60Hz

Counting & Filling Machines

Tablet/Capsule Filling & Counting Machine

For accurate counting and bottle filling of all kinds of tablets and capsules.

- · PLC control system
- Flap Nozzle for Non-Stop counting
- · Tablet size: 5~16mm in diameter
- · Bottle size: 30~200mm in diameter
- Accuracy: ± 0.1-0.2%
- Power Supply: Single Phase 110 or 220VAC, 50/60Hz

Model #	Description	Speed	Dimensions	Price
PP-100	Counting Machine	600~1000 pcs/min	30" L x 26.6" W x 29" H	
PP-415	Counting Machine with Bottle Feeding Conveyor	600~1200 pcs/min (15-20 bpm)	71" L x 35" W x 73" H	

Inline Tablet/Capsule Filling & Counting Machine

Fully Automatic 6 Channel Tablet / Capsule Counting Machine is design to feed and count any size, shape or quantity of tablet or capsule (hard shell capsules, soft shell capsules) with high count accuracy without any change parts required

- PLC control with 50 program memory
- Easy operation by Touch screen
- · Variable speed control for 6 tracks
- Automatic Bottle Indexing System
- Variable speed 3.25" plastic slat top conveyor belt
- Transparent and semi-transparent capsule acceptable, not necessary to change sensor
- Emergency stop with 3 color light tower
- Counting Method: Vibratory linear feeding
 Power Supply: 110 or 220VAC, 1 phase, 50/60Hz

Model #	Speed	Product Size	Bottle Diameter	Bottle Height	Accuracy	Price
PP-406	1,200~2,000 pcs/min (15-20 BPM on 100 pcs count)	>6mm dia x >4mm height	40-80mm	55-170mm	± 0.1-0.2%	
PP-426	2,100~4,000 pcs/min (35-40 BPM on 100 pcs count)	>6mm dia x >4mm height	40-80mm	55-170mm	± 0.1-0.2%	

Planetary Mixers

Heavy-duty, all purpose mixers use a powerful, planetary mixing action to thoroughly blend, mix and aerate all ingredients with consistent and predictable results. Great for blending cookie ingredients and kneading heavy dough.

TDR-2380	2oz - 24oz	1600 balls/hr	890 lbs	

Meat Ball Machine

	Automatically dispenses 35-200 meatballs per minute.
A CONTRACTOR	 Motor: 1 HP, 20 AMPS Electrical: 220 Volts, Single Phase Capacity: up to 50 lbs. per minute 20mm - 55mm in Diameter

Model #	Production Rate	Weight	Price
AS-206	35-200 meatballs/min	387 lbs	

Bread Slicers -

Table Top Model - Manual/Gravity Fed

- Gravity fed and engineered to slice soft crusted breads.
- Slice thickness: choose 1/2" or 1" (not adjustable)
- 110V, 60Hz, 1phase
- 19"L x 13"W x 26"H

Model #	Cut Rate	Motor	Weight	Price
ARM-07A	300 loaves/hr	1/4 HP	175 lbs	
ARM-07	300 loaves/hr	1/3 HP	175 lbs	

Table Top Model - Manual w/Pusher

Designed to slice hard bread, French bread, with a builtin bread pusher.

- Slice thickness: choose 3/8" or 1/2" (not adjustable)
- 1 HP motor
- 115V, 60Hz, 1phase
- 30"L x 26"W x 48"H

Model #	Cut Rate	Weight	Price
ARM-608	300 loaves/hr	175 lbs	

Potato Peelers -

22 Pound Capacity (TBM-10) • Motor: 1/2 HP

- Electrical: 115Volts, 60Hz
- Dimensions: 19.68"L x 19.68"W x 35.4"H

Model #	Peel Rate	Machine Weight	Price
TBM-10	22lbs/2.5min	110 lbs	

Dicers

33 Pound Capacity (TBM-15)

- Motor: 1/2 HP
- Electrical: 115Volts, 60Hz
- Dimensions: 19.68"L x 19.68"W x 35.4"H

66 Pound Capacity (TBM-30)

- Motor: 2 HP, 30Amps
- Electrical: 120Volts, Single Phase
- Dimensions: 29.53"L x 29.53"W x 51.18"H

Model #	Peel Rate	Machine Weight	Price
TBM-15	35lbs/3min	262 lbs	
TBM-30	70lbs/3min	573 lbs	

Table Top Model - Semi-Automatic

Designed to slice hard and soft breads.

- Slice thickness: choose 3/8" or 1/2" (not adjustable)
- 3/4 HP motor
- 115V, 60Hz, 1phase
- 25"L x 20.5"W x 9"H

Model #	Cut Rate	Weight	Price
Eurocut-007	300 loaves/hr	160 lbs	

Handheld Mixers

The PFM-Combo is designed for: salsa, soups, whipping cream, light dough, dressing, batters, cakes, pancakes, chopped parsley, refried beans, stews, instant potatoes, gravies.. etc.

115V 60HZ - variab	le speed

Includes 3 stainless steel shafts

Model #	Speed	Weight	Price
PFM-Combo	500-8000rpm	15 lbs	

Fruit & Vegetable Dicer

Dices, strips, slices, at high production capacities.

- Motor: 1 HP/220V
- 64.07"L x 63.62"W x 68.44"H

Model #	Dice Size	Machine Weight	Output	Price
CD-800	3-20mm	100kg (220 lbs)	500-800 kg/hr	
CD-1500	3-20mm	200kg (440 lbs)	2,000-3,000 kg/hr	

Food Processor

Slice, dice, cube, and shred virtually ANY vegetable. Many different disk sizes, shapes & types are available!

- Motor: 1/2HP, 20AMPs
- Electrical: 115Volts
- Polished cast aluminum casing
- Stainless steel knives
- Dimensions: 18"x12"x22"

Model #	Capacity	Weight	Price
TBR-580	1000lbs/hr	58 lbs	

Ribbon Blenders

MXS Ribbon Blender

Primarily used in the food, pharmaceutical and cosmetic industries. These machines are designed for mixing dry and granular products. Provides uniform and consistent blending. Working volume is 50-70% of numbers listed.

- #304 Stainless Steel
- Direct Drive
- Safety grate
- ٠ Safety cover
- 220 volt, 3 Phase Power (480 volt optional)

Model #	Capacity	Motor	Price
MXS-100	3.5 cubic ft - 26 gallon or 100 liters - 220 lb	4 HP

Options for "S" Series Horizontal Flow Wrappers

DESCRIPTION	Price	DESCRIPTION	Price
Stainless Steel frame construction- S Series		Dual/Twin end sealing jaws to reach speeds of 250 PPM	
Plastic carrier blocks		Triple Sealing Jaws	
Date coder-Pneumatic drive-Time delay-Carbon ribbon coder, X or Y Print position Needs to be changed when you	1	Top chain transfer conveyor on end seal area-Helps to transfer small 60mm (2.5") pkgs	
change speed.		Right to left (mirror image) machine configuration	
Date coder-Stepper motor drive–Encoder positioning- Carbon ribbon coder, prints in machine direction only, Alarm when ribbon is finished.		Top chain transfer conveyor on 2 meter infeed with multi belt transfer between in-feed and bag former (available on servo models only)	
Date coder-Stepper motor drive-Encoder positioning-Hot ink Coder, 2 position print X or Y direction.		No product / no cycle – available on 3 & 4 axis servo machines only	
U2 Pro Ink Jet Printer (1/2" print height and 600 DPI) (*For use with clear film only) Videojet Dataflex 6320-32 Thermal Transfer Printer (32mm		Double pitch in-feed conveyor with removable pushers for wrapping packages that have a large length range (3 axis servo machine only)	
print head) Videojet Dataflex 6320-53 Thermal Transfer Printer (53mm print head)	1	Mechanical and 1 axis servo machines require gear change	
Center seal pre-heater (for better sealing at high speed)		480 volt power	
End seal euro slot hole punch		Add Servo motor drive on "S" series machines (ea)	
Gas flush device (control valve & pipes)		Automatic film splicer with dual roll holder models	
Auto-Labeling unit-Will apply pressure sensitive label to to to of package		Cross Belt Auto Feeding Conveyor-Product transfers at 90 degrees	
Additional film roll holder		Extended Infeed Conveyors- Std length 2.3 meters/7 FT	
End seal gusset device		Add 1 meter – 3 ft/Total length of 10 ft	
Adjustable film forming box		Add 2 meters – 6 ft/Total length of 13 ft	
Fixed forming Box		Add 3 meters – 9 ft/Total length of 16 ft	
Hopper feed-Single tower, Manual loading of product into hopper, flight lugs picks product from hopper and places		Machine with wider film width of 710, 900 or 1000mm (27.9", 35.4" or 39")	Call for \$
onto infeed conveyor		Taller seal jaw opening of 102mm (4") or 120mm (4.7")	

BOPP Films

General purpose, heat sealable, co-extruded, bi-axially oriented polypropylene film.

Features

- Two side heat sealable
- · Broad heat seal range
- One side corona treated
- FDA compliant for food contact
- Outstanding clarity and superior gloss
- Excellent Machinability
- · Good moisture barrier

Applications

- · Bakery items, cookies, brownies, muffins, etc.
- Snack foods, crackers, etc.
- General box overwrap, DVD/CD, etc.

Vertical FFS Baggers

PM SERIES - High Speed Vertical FFS

Automatic bagging machine recommended for all types of products packed in pillow or gusseted pouch using laminate film or BOPP roll stock. Machine can use Auger Fillers for Powders, Volumetric Cup Filler for beans, rice, etc, or Multi-Head Weigh Scales for cereals, chips, candy etc.

• 7" color touch screen

- Panasonic PLC controller
- · Servo motor drive
- · Photo eye for printed films
- · Product counter

Batch Counting Feeders

Provides dependable one-shot feeding and batch count feeding of a wide variety of products. Ideal for collating and mail inserting applications that operate at speeds up to 100 cycles per minute. Simple tool-less adjustments for quick setups and changeovers.

Applications

- Collating
- Batch Counting
- Accumulating
- Kit Fulfillment
- Package Inserting
- Automatic Wrapping

Includes

- Adjustable angle table
- · Adjustable position outer belts
- Flex hold down rollers
- · Adjustable paper guides

Friction Feeder Stand

The Heavy Duty Stand on Rollers with Hand Crank Adjustment can be used for precise and easy placement or movement on a production line. The stand has a hand crank that allows easy height adjustment of the mounting plate of between 32 to 45 inches (813 to 1220mm). The stand has a wide sturdy base with heavy-duty casters for easy mobility. The stand is equipped with a standard top plate for quick secure placement of a friction feeder.

Automatic Impulse Sealers - Tabletop

PPW Series

Automatic Impulse Sealers are designed for continuous sealing of thermoplastic materials. Equipped with an electronic timer and an electromagnet, automatic sealers are controlled by a plug-in transistorized circuit board. Once correct settings have been established, consistent seals will be maintained automatically.

- · Automatic impulse sealing with precise electronic control
- · Dual mode operation: automatic or manual
- · Foot switch allows both hands to hold bag during sealing process
- 3 separate control settings for sealing time, recycle time, and congealing time provides consistent seals each time
- · Includes foot switch and worktable

PPW Series - Extra Wide

PPW-Series Extra Wide automatic sealers include the same standard features as the PPW Series and are equipped to seal materials up to 15mil total thickness.

- · Automatic impulse sealing with precise electronic control
- · Dual mode operation: automatic or manual
- Foot switch allows both hands to be free
- 3 separate control settings for sealing time, recycle time, and congealing time to produce consistent seals
- Includes electric foot switch and worktable
- · Equipped with two electromagnets to ensure stable pressure for the extra-wide seal bars

Precision Series Industrial Case Coding Inkjet Printers

Precision Series are high resolution case coding inkjet printers that are a great source for secondary packaging (boxes, cases, etc.). The series includes the powerful 72mm print head as well as other features:

- 8" color touchscreen
- · High-density ink to achieve high quality barcodes and character clarity
- · Simplified ink system delivers constant non-interrupted production
- · Durable stainless steel construction is built to last
- · 18 and 72mm configurations provide print height options
- · Printhead and controller are separated resulting in maximization of the point of print space

Model #	Print Height	Price

Glue Melt Label Applicators

Hot Melt Glue Label Applicator for Bottles

Also called OPP/BOPP labeling machine, the PP-J6000P is an inline hot glue labeler, with 4 labeling positions. The machine can work at speeds up to 3,000~6,000 bottles per hour (500ml). It is widely used for round shapes and 0.1~2 liters bottles for juice, soda/mineral water, carbonated drink etc. This machine can cut OPP, BOPP, Plastic and Paper labels to meet different requirements.

Power supply	220V±10% 3P, 50/60HZ
Total power	5KW
Labeling type	Wrapping round, labels in roll
Bottles	Round 45-100mm (1.8"-4"), Height 80-300mm (3.1"-11.8")
Label sizes	Length 135-300mm (5.3"-11.8") Height 20-140mm (.78"-5.5")
Glue coating	Two ends of the labels, 10mm (.39")
Labeling precision	±0.5~1mm
Capacity	6,000 BPH (500ML – 16.9oz Bottle)
Glue consumption	30-40 thousand bottles requires about 1kg(2.2lbs) of glue (label height of 50mm)
Compressed air	MIN 5.0 bar MAX 8.0 bar (70-100 PSI)
Air consumption	0.2M ³ /min
Total weight	1000kg (2,200 lbs)
Machine sizes	L=2000 W=1300 H=1800 mm (79"L x 51"W x 71"H)

Model # PP-J600P Description

Fully Automatic Hot Melt Glue Label Applicator

Cold Melt Liquid Glue Labeling Machine for Bottles or Cans

The machine coats the paper labels with liquid glue, and applies the paper labels to glass or metal rounds bottles and jars. This machine is widely used for labeling of round objects in industries such as food, medicine, chemicals and so on. The bottles are round and glass; the glue is water soluble resin glue. Not a full wrap.

Model #	Description	Price
Machine sizes	L=3000 W=850 H=750 mm	1
Total weight	550kg	shown with optional rack on lable
Compressed air	5.0bar, 4-6kgs×18liter/H consumption	*Shown with optional Pack Off Table
Glue	Water soluble resin glue	
Capacity	50~100bpm(Normal 500ML)	
Labels type	Paper, pieces in stock	
Label sizes	Length 35-300mm , height 30-98mm	
Glue coating	Full coating on the back of labels	
Bottles	Glass , Round ∮30-105mm	
Labeling type	Partially around a container	A CALL AND A
Total power	2KW	
Power supply	220V±10% 3P, 50/60HZ	The transmission

Print & Apply

Print & Apply Label Applicator

The PA4000 Automatic Printer Applicator is a high performance labeling head capable of speeds of up to 16 linear inches per second. It comes complete with a direct drive DC stepper motor, powered rewind, a 6.5-inch web width, and a standard 12-inch diameter label roll capacity. Under microprocessor control, the PA4000 is accurate to $\pm 1/32$ of an inch.

- · The applicator head can be oriented to any attitude for side, top or bottom placement
- Handles a full assortment of label shapes and sizes
- · Incorporates Sato S84 DPI Print Engine with ethernet connectivity

Specialty Label Applications

Flag Labeler

Designed specifically with cable, cord, tool, and medical device manufacturers in mind. From finer items like welding wire to larger items such as hoses/tubing, a flag labeling system will apply your labels fast, efficiently, and accurately.

- · Accommodates a 14" roll and includes a low label sensor.
- · Remote-mounted 7" touch screen display allows for flexible placement options.
- Zero waste pneumatics only uses air during operation.

Model #	Description	Price
PP-FL	Flag Labeler	

Header Card Applicator

Uses a constant heat sealing system to seal a header card around the top of a bag and seal the header card to the bag. A magazine hopper supplies the card stock material to the machine. Up to 3-4 times faster than manual operation.

- · Constant Head Seal
- · Foot switch operation
- #304 Stainless Steel frame and Aluminum Construction
- · Speeds of up to 15-20 cycles per minute
- Adjustable leveling pads
- Locking casters

Cling Stretch Film Overwrap Machines

Food Tray Cling Film Wrapper

Designed to apply a cling stretch film to the outside of a tray for meat, produce or any trayed product to preserve the freshness and appearance of the product while extending shelf life. Manual overwrap speeds of 5-12 trays per minute can be obtained depending on tray size, height and film thickness used which effects seal, dwell time and speeds. Uses 50 or 60 gauge cling film in 5,000 ft rolls.

(Closed film Cabinet)

PP-450T Tabletop Cling Film Stretch Overwrap Machine

Preferred Pack Model PP-450T is a Tabletop Cling Stretch Film Overwrap Machine used for products in a tray or without a tray such as fresh meats, poultry, fresh fruits and vegetables or cooked foods etc or any product that requires stretch film overwrapping. Perfect for small groceries, larger retail supermarket chains or distribution centers.

- 10" Color Touch Screen HMI
- · Fully enclosed seal area with safety interlocks on all doors
- · Adjustable leveling pads
- Spare Parts kit included

Cling Stretch Film Overwrap Machines

PP-500H Automatic Cling Film Stretch Overwrap Machine with Conveyor System

Designed to apply a cling stretch film to the outside of a tray for meat, produce or any trayed product to preserve the freshness and appearance of the product while extending shelf life. Production speeds of up to 25 packages per minute can be obtained depending on product length, height and type of film used which effects seal, dwell time and speeds.

- 10" Color Touch Screen HMI
- · Heavy duty locking casters
- · Adjustable leveling pads
- Fully enclosed seal area with safety interlocks on all doors exceeds OSHA safety standards

Tuck-Fold Overwrap Machines

SEMI-10 Semi-Automatic Overwrap Machine

Semi-Automatic overwrapping machine that works with cut sheet film for simple operation and low cost. This unit is designed for small batch runs with limited investment required. The Semi-10 is capable of wrapping at speeds of 5-10 PPM. Product can be hand loaded onto a pre-cut film sheet which is wrapped around the package then advanced forward into the machine to be overwrapped in an OPP type film.

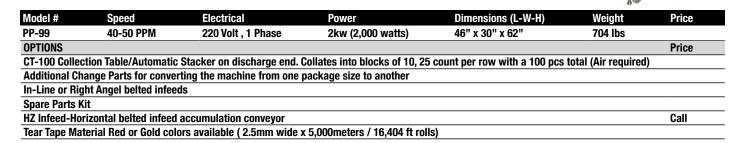

- · Servo drive
- Auto Film Advance
- PLC and HMI
- · Uses cut sheets

Model #	Max Box Size	Changeover Time	Speed	Power	Air Pressure	Price
Semi-10	L: 2-9.8" W: 1.5"-6" H: 1-3.5"	5 - 10 minutes	5-10 PPM	220V - 50/60 Hz	6 Bar	

PP-99 Automatic CD/DVD Overwrap Machine

Fully Automatic CD/DVD overwrapping machine capable of wrapping at speeds of 40-50 PPM. Product is hand loaded into the hopper were the machine automatically advances the product forward into the machine to be overwrapped in an OPP type film. The PP-99 can be designed to run a wide variety of box sizes for Cosmetics, Pharmacy, stationary or candy boxes.

- · Vertical hopper to automatically feed 50 CDs or 40 DVD cases
- · Tear Tape Applicator
- Easy thread film feed mechanism
- Emergency stop button shuts down machine
- Heavy duty locking casters with adjustable leveling legs

BOPP Film

Heat Sealable CO-EX BOPP Films

General purpose, heat sealable, co-extruded, bi-axially oriented polypropylene film for general box overwrap, DVD/CD, etc.

Features

- Two side heat sealable
- Broad heat seal range
- One side corona treated
- FDA compliant for food contact
- Outstanding clarity and superior gloss
- Excellent Machinability
- Good moisture barrier

Applications

- · Bakery items, cookies, brownies, muffins, etc.
- Snack foods, crackers, etc.
- General box overwrap, DVD/CD, etc.

OPTIONS FOR ALL SFE MODELS

Bottle sorting infeed conveyor for 24 or 36 packs without bottom tray Dual lane diverter for bottles to increase line speeds on all models

Dual pusher to increase line speeds on all models

Semi-Automatic Poly Bundler with Shrink Tunnel PP-6030 Poly Bundler + PP-6040S Shrink Tunnel

- · Pusher arm advances product into seal area.
- · Easy to use front control panel with digital temperature controls
- · Dual film rack with independent Heavy Duty motor drive
- · Pneumatic product hold down to stabilize product on discharge conveyor
- · Good air circulation inside of tunnel chamber for best shrink results
- Machine speeds of 5 to 10 PPM depending on product size and film gauge used.
- · Heavy duty high RPM, high air velocity blower motor
- Heavy duty Dead roller rod conveyor
- · Cooling fan on discharge end of tunnel
- Emergency stop switch
- · Heavy duty leveling pads
- · Air regulator with water trap

Automatic Right Angle Poly Bundler with Shrink Tunnel PP-6030A Poly Bundler + PP-6040M Shrink Tunnel

(for products in a tray)

- Right angle power belted conveyor advances product to pusher which pushes package into seal area.
- · Easy to use front control panel with digital temperature controls
- Dual film rack with independent Heavy Duty motor drive
- · Pneumatic product hold down to stabilize product on discharge conveyor
- Good air circulation inside of tunnel chamber for best shrink results
- · Machine speeds of 8 to 18 PPM depending on product size and film gauge used.
- Heavy duty high RPM, high air velocity blower motor
- Heavy duty Dead roller rod conveyor
- Cooling fan on discharge end of tunnel
- · Emergency stop switch
- · Heavy duty leveling pads
- · Air regulator with water trap

Right Angle Poly Bundler with Upstacker & Shrink Tunnel PP-6030AE Poly Bundler + PP-6040M Shrink Tunnel

Fully automatic right-angle infeed with upstacker for multi-packing of boxes. This unit is great for making 6, 9, 12, 18 or 24 packs out of individual items.

Automatic Inline Poly Bundler/Sleeve Wrapper/Shrink Tunnel PP-6030Z Poly Bundler + PP-6040M Shrink Tunnel

- · 36" power belt infeed conveyor with photo eye
- · 20" powered discharge conveyor
- · Independent Seal timer
- · VFD Drive for conveyor speed control
- Front control panel with digital temperature controls
- · Dual film rack with independent motor drives
- · Pneumatic product stabilizer on discharge conveyor
- · AC Variable speed motor inverters with PLC
- Tunnel size of 71" L x 31.5" W x 16"H
- · Heavy duty high RPM, high air velocity blower motor
- · Heavy duty dead roller conveyor used to transport product through tunnel
- · Air velocity from all 4 side for better shrink results
- · Will run any commercial grade polyethylene film
- · Emergency stop switch on front control

Automatic In-Line Poly Bundler with 2 Side Seal Wheels for Complete Enclosure

- · In-Line power belted conveyor advances product to pusher which pushes package into seal area.
- · Dual film rack with independent Heavy Duty motor drive
- · Pneumatic product stabilizer on discharge conveyor
- · Good air circulation inside of tunnel chamber for best shrink results
- · Uses dual blower motors for high efficiency shrink
- · Heavy duty high RPM, high air velocity blower motor.
- Heavy duty Dead Roller rod conveyor
- Cooling fan on discharge end of tunnel
- Emergency stop switch
- Heavy duty leveling pads
- · Air regulator with water trap
- Omron PLC controller

Poly Bundling Multi Lane Bottling Line

Fully automatic, multi-lane poly bundler for wrapping cans or bottles. Includes a 2.5 meter indeed designed to separate the bottles and lane them into the proper configurations for a 12, 24 or 36 pack in a single push without a tray or corrugated support.

· Includes multi-lane infeed & shrink tunnel

Model SFE-800AU MLBI Speed 8-10 cpm Price

Poly Sleeve Wrappers (No Tunnel)

Individual Poly Sleeve Wrappers are sold separately without a shrink tunnel in 3 different model types. SA Series are semi automatic, push button machines, NF Series are inline automatic machines which feature a powered indeed conveyor and the AU Series which are automatic machines with right or left angle infeed conveyors which are typically used for running multipack packages of 3, 6, 9 or 12 packs.

NEW!

Automatic In-Line Poly Bundling System for Wrapping Open Coils or Spools PP-6030AC Poly Bundler + PP-6040E Shrink Tunnel

Operator loads the product onto the roller conveyor which transfers the products into the seal area where the film is enclosed around the package and automatically discharged into the shrink tunnel. This dual roll system (one roll at the top and one roll at the bottom) fully encapsulates the package and produces a "bullseye" with the two ends of the package open, then the conveyor of the shrink tunnel advances the package automatically into the shrink tunnel and upon exiting the tunnel the exit cooling fans on the tunnel help cool down and set up the polyethylene shrink film.

- · Hot Knife Seal Bar with safety switches
- In-Line Powered Roller Conveyor advances product past sealing jaw which then seals the coil or spools and discharges into shrink tunnel
- · Easy to use control panel with digital temperature controls
- · Dual film rack with independent Heavy Duty motor drive
- Good air circulation inside of tunnel chamber for best shrink results
- Machine speeds of 0-12 PPM depending on product size and film aauge used
- Heavy duty high RPM, high air velocity blower motor
- · Heavy duty Dead Roller conveyor
- Cooling fan on discharge end of tunnel
- · Emergency stop switch
- Heavy duty leveling pads
- · Air regulator with water trap

L-Sealers - Semi-Automatic

"All-in-One" L-Sealer with Shrink Chamber

Semi-Automatic L-Sealer and Hooded Shrink Chamber in one complete unit. Will seal and shrink PVC or Polyolefin shrink films.

- "Band Seal Technology"
- · Dual Magnetic Hold Down for seal and shrink cycle
- Pinwheel Hole Punch
- Locking Casters
- PP-48ST (add \$295.00 for 220 volt)
- · PP-76STC has power discharge conveyor

PP-1519 Economy Combo Series - L-Sealer/Tunnel Combo

Entry-level, light duty L-Sealer and Shrink Tunnel with 6" opening built on the same frame.

L Sealer Features Include:

- Seal Dimensions: 15"W x 19"L
- "Micro Knife Technology"
- · Easy load film cradle
- · Perforating pin wheel hole punch
- · Adjustable film loading tray
- · Signals end of seal cycle
- · Independent seal and pulse timers
- · Heavy Duty stainless steel film clamps
- · Production rates of 8 to 12 PPM

Heat Tunnel Features:

- · Heavy duty "Hi-Density" roller spacing
- · Anti-Jam safety feature in tunnel
- · 2,200 watt heaters
- · Fully re-circulating air chamber
- · 2,000 RPM blower motor
- · AC variable speed conveyor
- · Digital Tunnel temperature control
- · Separate Heater switch
- · Automatic cool down with shut off
- · Locking Casters
- · 8 ft heavy duty power cord.

PP-5600E L-Sealer & PP1808-28 Shrink Tunnel Set

The "Preferred Pack" PP-5600E/PP1808-28 is a fully automatic L'Sealer and Shrink Tunnel that is sold as a set or individually.

Shrink Tunnel Features

- Lighted viewing window
- Chamber size 28"Lx18"Wx8"H
- · Energy efficient
- 1/2 HP blower motor
- · Fully re-circulating air chamber
- · Live roller rod conveyor
- Digital temperature controller 0-400°
- 7.5KW heater bank
- Variable speed drive 0-90 FPM
- · Automatic cool down and shut off
- 220V, 1 Phase, 40 Amp

L'Sealer Features

- · Speeds up to 20-25 PPM
- · Fast product changeovers
- · Teflon coated hot knife seal blade
- · Fixed conveyor speed at 65 FPM
- · Pin wheel hole punch
- · Emergency stop switch
- Self Contained scrap removal system
- Large seal area: 22"L x 18"W x 4.75"H
- Max pkg size: 20"L x 14.5"W x 4.75"H
- 220V, 1 Phase, 15 Amp
- Max film width 24"

Side Seal Machines

Entry Level Intermittent Motion Side Seal Machines

2-Belt fully automatic, infinite length, side seal machines will seal all commercially available polyolefin and polyethylene films. 2 belt design provides for smooth product transition from infeed belt to side seal, then through cross seal bar. Omron Inverter Drives with Variable Speed Drive 0 to 100 FPM.

- Omron PLC
- Teflon Coated Hot knife Cross Seal Bar
- Servo Motor Drive on Cross Seal
- · Independent digital temperature controls
- Omron Color Touch Screen
- Motorized scrap wind up wheel with built in alarm when full
- Emergency stop switch with reset button
- Automatic pin wheel hole punch

- Powered in-feed conveyor with electric eye to start cycle
- · Adjustments for bag size front and back
- · Rear mounted film carriage
- Accepts random length products with no
- changeover required
- Adjustable height legs with locking casters
- Fully enclosed seal area
- Safety interlocks on all doors

Shrink Banding Tunnels

Radiant Heat Neck Banding Shrink Tunnels

This tunnel was designed for Tamper evident bands, safety sleeves, pill bottles, jars, food containers, PVC cut shrink bands, preforms and neck bands. Uses radiant heat and hot air to concentrate hot air over neck band or bottle cap.

- · Adjustable temperature control
- · Variable speed conveyor with adjustable side guides
- Adjustable leveling pads
- 220 volts 20 amps 1 phase
- · Uses 4" wide plastic slip top belting
- · Emergency stop

Concentrated Heat Neck Banding Shrink Tunnels

This tunnel was designed for Tamper Evident Bands, safety sleeves, pill bottles, jars, food containers, PVC cut shrink bands, preforms and neck bands. Uses "Leister" hot air gun to concentrate hot air over neck band or bottle cap. Heat and air flow concentrated from 3 sides to fully shrink around neck bands

- · Adjustable temperature control
- · Variable speed conveyor with adjustable side guides
- · Adjustable leveling pads
- 220 volts 20 amps 1 phase
- · Uses 4" wide plastic slip top belting

Shrink Banding Tunnels

Neck Band Shrink Tunnels without Conveyor

The shrink tunnel has a hot air circulating system, which can be used to shrink bottles, jars, cups etc. using PVC or PET material. Fits over any existing conveyor line. Tunnel height is adjustable to fit the height of production line. Can be used for neck bands and full body shrink sleeves.

- · Locking casters
- Leveling pads
- 8,000-12,000 pieces per hour
- Power: 18kW
- Electrical: 220V, 3 Phase, 53 Amps, 50/60HZ

Shrink Banding Tunnels with Rotating Puck Conveyor

The shrink tunnel has a hot air circulating system, which can be used to shrink bottles, jars, cups etc. using PVC or PET material. Can be used for neck bands and full body shrink sleeves. Conveyor has adjustable pucks that will rotate 360 degrees allowing for a full shrink around the container for optimal shrink. The longer 143" conveyor models allow for easier loading of bottles.

- Pucks rotate 360 degrees
- Digital temperature control
- · Variable air velocity
- Dual blower motor
- Emergency stop switch
- · Locking casters
- Leveling pads
- 220V, 3 Phase, 50 Amps, 50/60HZ
- 12kW power

Radiant Heat Shrink Tunnels for Full Body Sleeves

The PP-2040TC is a dual zone chamber that uses a combination of forced air and radiant heat combined with side drive belts to rotate the package through the tunnel for optimal shrink of tamper evident shrink bands, neck bands and full body shrink sleeves of large containers.

- Shrinks PVC or PET sleeves
- Dual temperature control 0-400 degrees
- · Variable speed drive motor 0-60 FPM
- · Packaging Speeds of up to 1,200-2,400 pcs/hr
- · Heavy duty stainless steel metal conveyor belt
- Dual blower motor
- · Adjustable leveling pads
- Electrical: 220 volt, 3 phase, 40 amp

· Multiple adjustable angle radiant heaters

Power: 16kw

Steam Tunnels

Steam Shrink Tunnels

The Steam Shrink Tunnels are designed to efficiently shrink full body shrink sleeves on almost any container type and almost any shrink film material. The low pressure steam tunnel distributes steam evenly with an integrated steel tube design. There are steam jet tubes in each section of the tunnel which are adjustable for both height and steam output. The shell of the tunnel is constructed of #304 Stainless Steel and there is also a stainless steel water collecting plate to collect the condensated water. The stainless steel, water-proof design makes it easy to clean and maintain.

Steam Generators for Steam Tunnels

This steam generator design consists of a high pressure chamber filled with water that is heated by submerged electric heaters. Automatic controls are provided to maintain the pre-set operating pressure and water level. Safety features include automatic low water cutoff, dual pressure controls, safety valve and visible water level gauge.

The steam generators are an integrated system, National board of PVI inspected, ASME Coded, UL Listed, Canadian UL Listed. It is the responsibility of the customer to conform to any state or local codes.

Tabletop Tray Sealers

Food Tray Cling Film Wrapper

Designed to apply a cling stretch film to the outside of a tray for meat, produce or any trayed product to preserve the freshness and appearance of the product while extending shelf life. Manual overwrap speeds of 5-12 trays per minute can be obtained depending on tray size, height and film thickness used which effects seal, dwell time and speeds. Uses 50 or 60 gauge cling film in 5,000 ft rolls.

(Closed film Cabinet)

Model	Max Seal Width	Max Seal Temp	Voltage	Power	Dimensions	Weight Price	
TW-450E	420mm (16.5")	160 C (320 F)	110	300W	24" L x 18.5" W x 4.7" H	14 lbs	
TW-550E	520mm (20.5")	160 C (320 F)	110	450W	28" L x 18.5" W x 4.7" H	16 lbs	
TE-450F	420mm (16.5"	160 C (320 F)	110	300W	24" L x 18.5" W x 4.7" H	14 lbs	

EASYTECH - Manual Tray Sealers

A fast and simple way to seal small quantities of trays at an affordable price. Simply load the tray into the tray cavity, pull the film roll from the back of the machine over the tray to completely cover the tray, pull down the handle of the heated top platen and apply pressure to produce a seal and cut the film off the end of the tray. Release the handle and the top platen is spring loaded and will automatically return to the up position. Remove sealed tray to complete the sealing cycle.

- · Digital Temp Control
- #304 Stainless Steel Frame
- Will run APET, CPET, PP, PET or PE trays
- · Includes one set of tooling
- Will not die cut around individual tray
- · Lidding film and trays quoted upon request

Model	Max Tray Size	Max Tray Height	Max Roll O.D.	Max Film Width	Power	Dimensions	Weight	Price	Add'l Tooling

EASYTECH-2	9.8" x 12.6"	6"	8"	10.5"	110V	20" L x 17" W x 10" H	45 lbs		

SEALTECH - Semi Automatic Tray Sealers

This semi-automatic sealing machine is a table top model used for preformed trays and it will seal and cut the film off the end of the tray by an electric driven motor. The temperature and sealing time can be set depending on the type of tray and material being sealed. As you push the tray in the film is automatically moved over the top of the tray to be sealed, remove the tray and peel off any excess film. This machine is designed to ensure that each compartment of the tray is separately sealed. Easy changeover of tooling allows operator to run different trays easily.

- · Digital temp control with adjustable seal timer
- #304 Stainless Steel Frame
- Will run APET, CPET, PP, PET or PE trays
- Cycle Speed: 5-6 seconds (10 CPM)
- Includes one set of tooling
 - Will not die cut around individual tray

Tabletop Tray Sealers

PP-900 Series Tray or M.A.P. Sealers

This table top series is used for sealing heat sensitive film to pre-formed trays or containers for a tamper evident stay-fresh seal. It will seal and die cut the film around the container for an attractive look. The temperature and sealing time can be set depending on the type of tray and material being sealed. This machine is designed to ensure that each compartment of the tray is separately sealed. Easy changeover of tooling allows operator to run different trays easily.

- · Automatic or Manual mode
- # 304 Stainless Steel
- · Suitable for PP, PE, PET, PVC, Cardboard, CPET, APET or Foil Trays
- One set of tooling included. Addt'l tooling available.
- MAP (Modified Atmosphere Packaging) Models available.
- Photo eye included for running print registered films
- Dimensions: 20"L x 14" W x 32" H
- Tray Depth: Maximum 4.75" Std
- Air Required: 1CFM @ 80 PSI
- Power: 110V or 220V
- · Weight:180 lbs
- Can run combo tooling

Single Chamber Vacuum Sealers

TC Series - Tabletop Chamber Sealers

The ideal solution for small processors, restaurants, and laboratories, these items are affordable enough to be purchased simply as a backup while maintaining superior quality that one can rely on during years of heavy use. Primarily used for preserving fresh meats, vacuum packaging has been found to be beneficial in other industries such as pharmaceuticals and electronics.

All of our chamber machines are constructed of a highquality stainless steel that results in our machines looking better longer. With the option of basic digital or fully programmable controls, you can decide what will best suit your needs. The removable seal bars can be fitted with your choice of a single 6mm wide seal or opt for a thinner seal with hot wire cut-off, if that is your preference.

- · Easily fits in most spaces; compact
- · Stainless steel construction
- Durable aluminum seal bar
- · Clear, see-through lid

Tabletop Vacuum Sealers

AVS Series - Retractable Nozzle Vacuum Sealer

Offered in our most popular 20" seal length, the AVS combines the same quality and design integrity exhibited in the AVN without the gas-flush feature. The AVS is the choice sealer for the widest range of our clientele, from medical and electronics device manufacturers, to food industry, to pharmaceutical and aerospace corporations.

•	2 year limited warranty

AVN Series - Retractable Nozzle Vacuum Sealers with Gas Purge

Foot pedal activated gas-flush vacuum packaging at its finest. The AVN's 1/4" (10mm optional) wide sealing element delivers a leak proof seal for electronic devices that require moisture barrier bags. With one touch of the pedal, the AVN flushes out oxygen and moisture with nitrogen, the automated stainless steel nozzle retracts, and your sensitive components are sealed in seconds. Clean Room compatible, the AVN is also ideal for dry packaging applications on trays, tape and reel, tubes and a variety of SMD shipping containers.

· Air Supply Required

MODEL	SEAL LENGTH	SEAL WIDTH	UNIT SIZE	AIR	AMPS @ 120 Volts AC	WEIGHT	Price
AVN 20	20"	1/4"	28"L x 10"W x 7"h	6 CFM@90PSI	6	33 lbs

CAVS Series - Self Contained Retractable Nozzle Vacuum Sealer (built-in air compressor)

Expanding the abilities of the AVS model, the CAVS eliminates the need for additional equipment. Completely self contained, the CAVS is ready to perform out of the box, while saving money by reducing equipment requirements and providing greater flexibility of placement locations.

• No Air Supply Required

- 2 year warranty
- · Non-exchangeable and non-refundable

MODEL	UNIT SIZE	SEAL LENGTH	SEAL WIDTH	AMPS @ 120 Volts AC	WEIGHT Price

CAVS 30	38"L x 10"W x 12"h	30"	1/4"	15	72 LBS

CAVN Series - Self Contained Retractable Nozzle Vacuum Sealer (built-in air compressor & gas purge)

The CAVN model adds gas-purge functionality and is ready to perform out of the box. With one touch of the pedal, the CAVN flushes out oxygen and moisture with nitrogen, the automated stainless steel nozzle retracts, and your sensitive components are sealed in seconds. CAVN's gas-flush feature can be switched off for impulse heat sealing only.

- No Air Supply Required
- Non-exchangeable and non-refundable

· 2 year warranty

Heavy Duty Vacuum Bags

285 Series Heavy Duty Vacuum Bags

Cost-effective FDA approved film used extensively for demanding vacuum applications found in a variety of industries. The clarity allows it to be used in Price, as well as, institutional duties. The films extensibility (ability to stretch) allows it to conform to unique product geometry. Low oxygen transfer rate, high impact resistance, and its low cost make it popular with meat, fish, nuts, dried fruit, jerky, and snack products.

Converting:

It can be converted in many ways: 2-seal pouch, 3-seal pouch, or a re-closeable zippered pouch. It can also be surface printed (flexo line or flexo process).

These bags are commercial grade and will not work on home vacuum systems.

- Nylon/Poly COEX Vacuum Bags Nominal 3 mil
- 3-seal pouches with 3/8" seal dimension
- Inner packs = 250 quantity (bagged)
- Min order \$250.00 (Mixed sizes ok)

Air Pillow Machines

Air3[™] Air Pillow System

- · A robust design that takes up less space but can still take on heavy-duty packing challenges.
- · With a 56ft/min rate you can efficiently pack large or small batches.
- · Lets you perform up to twenty different pre-settings with the press of a button.
- Additional support options are available, such as pedal control, table stand, automatic hopper delivery system, coiler and movable delivery system, etc.

Purchase a minimum of 8-10 rolls of air pillow film per month and get a free machine. Minimum contract period may apply. Call to inquire.

Bench Scales

PP-915 Bench Scales

Ideal weighing solution for applications such as portion control, food processing, straight weighing or over/under weighing.

- · Mild steel platform, 304 stainless steel tray for easy cleaning
- Adjustable tilt display for convenient viewing
- · Aluminum environmentally sealed single point load cell
- · Adjustable feet provides exceptional traction
- · Standard removable column and wall mounting option
- · Checkweighing feature for quick portioning
- · IP Rating: IP 65
- Level bubble
- Warranty: 2 yrs on platform, 1 yr on electronics

Bench Scales

PP-915SS Series - All Stainless Steel Washdown Bench Scales

Stainless Steel scale and indicator made to be easily sprayed down for washing. Ideal weighing solution for applications such as portion control, food processing, straight weighing or over/under weighing.

- · Stainless steel base, stainless steel platform, polyolefin casters
- NEMA 4X stainless steel washdown hardwired indicator with a rechargeable battery and 0.9" LCD display
- · Stainless steel hermetically sealed load cell
- · Load cell cable hardwired to indicator for maximum water protection
- · Detachable column, tilt stand for table, wall or under counter mounting
- · Overload stops on scale base
- Units: g, lb:oz, oz (g, lb:oz, oz is not Legal for Trade)
- Lower/upper limit alarm
- Counting feature (not Legal for Trade)
- · Level bubble

PP-915BW Series - Portable Bench Scales with Wheels

Designed for speed and accuracy with an extremely heavy duty platform, built in back rails and wheelsIdeal for busy shipping docks, outdoor markets, manufacturers, food processing and other bulk sales.

- · Convenient portable weighing platform
- · Easily moves in any work area
- 27.5" backrail for pushing or pulling
- · Swivel wheel casters come with brakes in the back
- · High accuracy stainless steel loadcells
- · Hinged indicator bracket
- · High Resolution with overload protection
- · Adjustable tilt display for convenient viewing
- · Check-weighing feature for quick portioning
- · Built-in RS-232 communication port
- · Level bubble

Bench Scales

PP-915BT Series - Ball Transfer Bench Scales

Heavy-Duty Platform With Ball Transfer Top for Easy Maneuvering of Packages. Ideal Weighing Solution for Applications Such as Portion Control, Food Processing, Straight Weighing or Over/Under Weighing.

- Stainless Steel Enclosure
- Adjustable Tilt Display for Convenient Viewing
- Adjustable Feet Provides Exceptional Traction
- IP Rating: Splashproof IP 65
- Level Bubble
- Selectable Weight Units
- Bi-Directional RS232 Serial Port
- Auto Shut-Off and Sleep Modes
- Rechargeable 90-Hour Battery
- NTEP Class III, 5000 Divisions, Legal-For-Trade Certification.

Model #	Pan Size	Capacity	Column Height	NTEP	Weight	Price

Weigh-Fill Scales

PPS-4 Semi-Automatic Weigh-Fill Scale System

- · All product contact surfaces 304 stainless steel
- · Handles all dry bulk from powders to large parts
- Can be used with all bags and rigid containers
- Tare adjustment
- Bulk and Dribble gate speed control
- Stainless Steel chassis
- 4 leveling pads
- 4 locking casters

- Reads out to 1 gram or .001 lb
- Controller range up to 10lbs.
- Supply Hopper Cap. 3.5 cu.ft. (100 liter) 75 lbs
- Up to 800 fills/hour
- Power: 110 volts 60Hz AC
- Air: 0.5 CFM at 40 PSI
- Weight: 205 lbs

PPS-6 Cascading Weigh-Fill Scale System

Designed to fill harder to run products such as crackers, Tortilla chips and other non-free-flowing dry products. A 7" color touch screen makes set up fast and easy and allows for accurate filling.

- · Dual Cascading Feed Pans
- · Reads out to 1 gram
- · Controller range up to 10 lbs.
- Supply Hopper 100 liter (13 Gallons or 70 lbs).
- All #304 Stainless Steel Construction
- · Discharge Chute or Discharge Bucket available
- Stainless Steel Frame
- Footprint 7.5 sq.ft., 80" high
- · 4 locking casters
- 4 Leveling Pads
- 120V, 60Hz (240V, 50Hz option)

- · Handles all dry bulk products from powders to large parts
- Compatible with all bags, rigid containers, and bagging machines
- · Automatic tare adjustment
- Includes Fill level Sensor
- · Both bulk & dribble speed control
- 600-800 fills/hour
- Supply Hopper: 28" x 28" (13 Gallons or 70 lbs)
- Scale Total Weight: 255 lbs.
- Power: 120 Volts AC 60Hz 10 amps
- Air: <0.5 cfm air supply at 40psi

X-Ray Inspection

MEKI ONE

Superior X-ray sensitivity and the smallest footprint with all the latest features and functionalities, such as integrated automatic reject, reject bin and reject confirmations.

- X-Ray Power: 100W
- Detection Area: 9.4"W x 4.33"H
- Conveyor Speed: up to 258 ft/min
- Operating System: Windows 10
- HMI: 12" Color TFT LCD Screen
- Material: Stainless Steel, brushed
- · Integrated air reject with bin and standard reject confirmation
- Dimensions: 1200/1280mm W x 715mm D x 2000mm H

Model #	Conveyor Length	Tunnel Length	IP Rating	Power	Weight	Price
MEKI ONE	47"	39"	IP-54	110/240 vac 50-60 Hz	165 lbs	

MIDMEKI

Designed for the inspection of larger food products with a wider conveyor and larger detection area! High salt content items, high moisture content items and metals are no match.

- X-Ray Power: 200W
- Detection Area: 16"W x 8"H
- Conveyor Speed: 192ft/min
- Operating System: Windows 10
- HMI: 12" Color TFT LCD Screen
- Material: Stainless Steel, brushed
- Dimensions: 39" W x 28" D x 80" H

Model #	Conveyor Length	Tunnel Length	IP Rating	Power	Weight	Price
MIDMEKI	39"	39"	IP-65	110/240 vac 50-60 Hz	485 lbs	
10.11.11						

*Optional longer conveyor lengths available

MEKI C

Curtainless X-Ray system designed for smooth product transfer of for light products where lead curtains will knock out products. Great for cups.

- · X-Ray Power: 100W
- Detection Area: 9.5"W x 4.1"H
- Conveyor Speed: 192ft/min
- Operating System: Windows 10
- HMI: 12" Color TFT LCD Screen
- Material: Stainless Steel, brushed
- Dimensions: 100"L x 28"W x 80"H

Model #	Conveyor Length	Tunnel Length	IP Rating	Power	Weight	Price
MEKI C	100"	40"	IP-54	110/240 vac 50-60 Hz	485 lbs
